

DORMOSAFE heating mat

Warming patients safely and efficiently

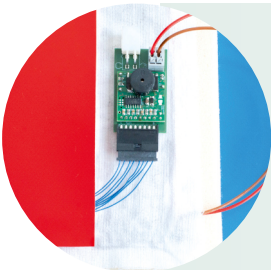

The Dormosafe heating mat is the latest development of professional conductive heating systems for veterinary medicine. Dormosafe combines highest safety, ease of use, and ideal heating quality.

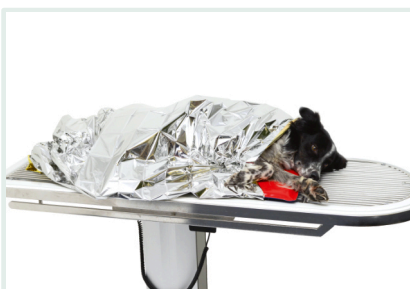

Accelerate healing

- Active warming for a constant core body temperature
- Reduces the risk of surgical complications
- Accelerates the recovery phase and healing

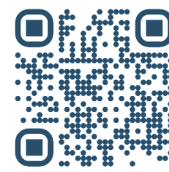

Operate safely

- Integrated microcontroller
- Three sensors ensure even heat transfer
- Misplacement is impossible

The warming system Dormosafe - maximum safety for your patient!

Dormosafe Soft

- Soft mattress
- Effective and uniform heat transfer
- Optimal support prevents pressure sores
- Highly safe and flexible
- Automatic regulation of temperature
- Extremely hygienic, easy to clean

Size S	approx. 45 x 35 x 2cm
Size L	approx. 60 x 45 x 2cm

Advantages over hot air blowers

- No hot air around the surgeon
- Easier handling
- No disposables (sustainable)
- Lower costs
- Very energy efficient
- No incubation of bacteria
- Silent operation
